Military Medical/CBRN Technology

April 2009
Volume 13 | Issue 2

Cover and In-Depth Interview with

Rear Admiral Michael H. Mittelman

Command Surgeon, U.S. Joint Forces Command
Medical Advisor, Allied Command Transformation
Director, Medical Service Corps

FEATURES:

Congressionally Directed Medical Research Program

These far-reaching programs include research into long-term solutions as well as more immediate issues.

Defense Supply Center Philadelphia

Ensuring medical gear and supplies are at the right place at the right time falls on the shoulders of DSCP.

Civil Support Teams

The core link between the military and civilian response to a domestic CBRN event.

Military Vaccine Agency

Working to synchronize information and education, enhance scientific understanding, promote quality, and coordinate military immunization programs worldwide.

Chem/Bio Warning

A new program seeks a chemical/biological early distributed warning system.

Insertion Order Deadline: March 20, 2009 • Ad Materials Deadline: March 27, 2009
